

# Interview Participant Worksheet

Thank you for your participation in my very first User Research Study. Your opinion is valid and there are no right or wrong answers. Please try to relax.

1. If money or cost was not a factor, how many times per week would you dine out a week?
2. Have you used a food ordering service on your computer or smartphone?
3. When deciding on what to order out what are the two most important factors?
4. Have you had a poor experience with ordering a meal and why was it poor?
5. In what way does visualizing the menu choices effect your decision to buy or look else where?
6. What is the most painful part for dining out for you?
7. Does the idea of ordering food while on a digital platform such as social media, video game, VR or over Zoom appeal to you?
